[Collection](#)[Accessories](#)[Pro Components](#)[Compare](#)[SoundDeck Pro](#)[Tech Specs](#)[Buy Now](#)

The new SoundDeck Pro is a breakthrough speaker that adapts to its location and delivers high-fidelity audio wherever it's playing. Together with voice assistance, it creates an entirely new way for you to discover and interact with music at home. And it can help you and your whole family with everyday tasks — and control your smart home — all with just your voice.

The SoundDeck Pro has a Surround 360 degree design which helps it outperform high end speakers even 3 times its volume and size.

The Condensed tweeter array and dual subwoofer system makes sure that there are no compromises in the sound quality. The SoundDeck Pro is power packed and never fails to deliver on entertainment.

Deep bass with range you can feel.

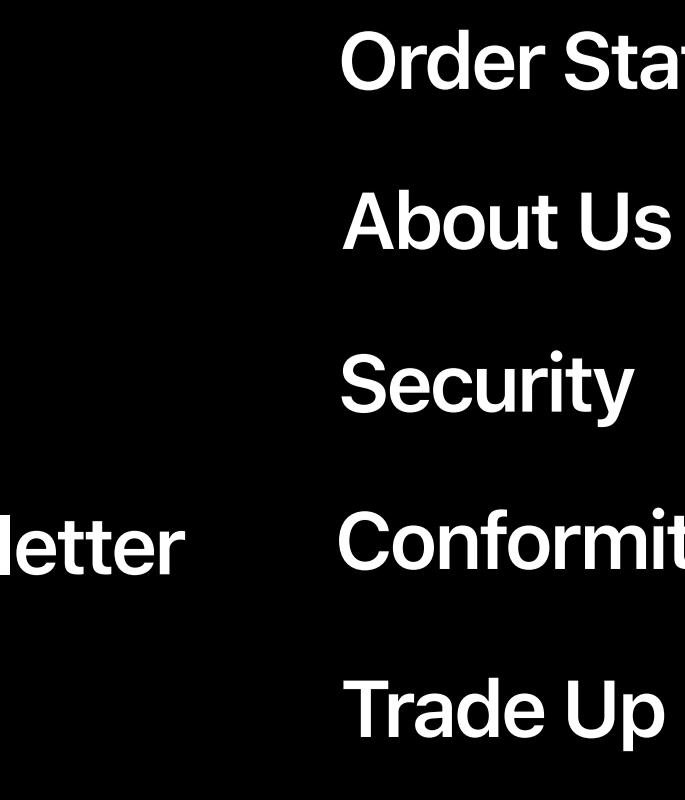

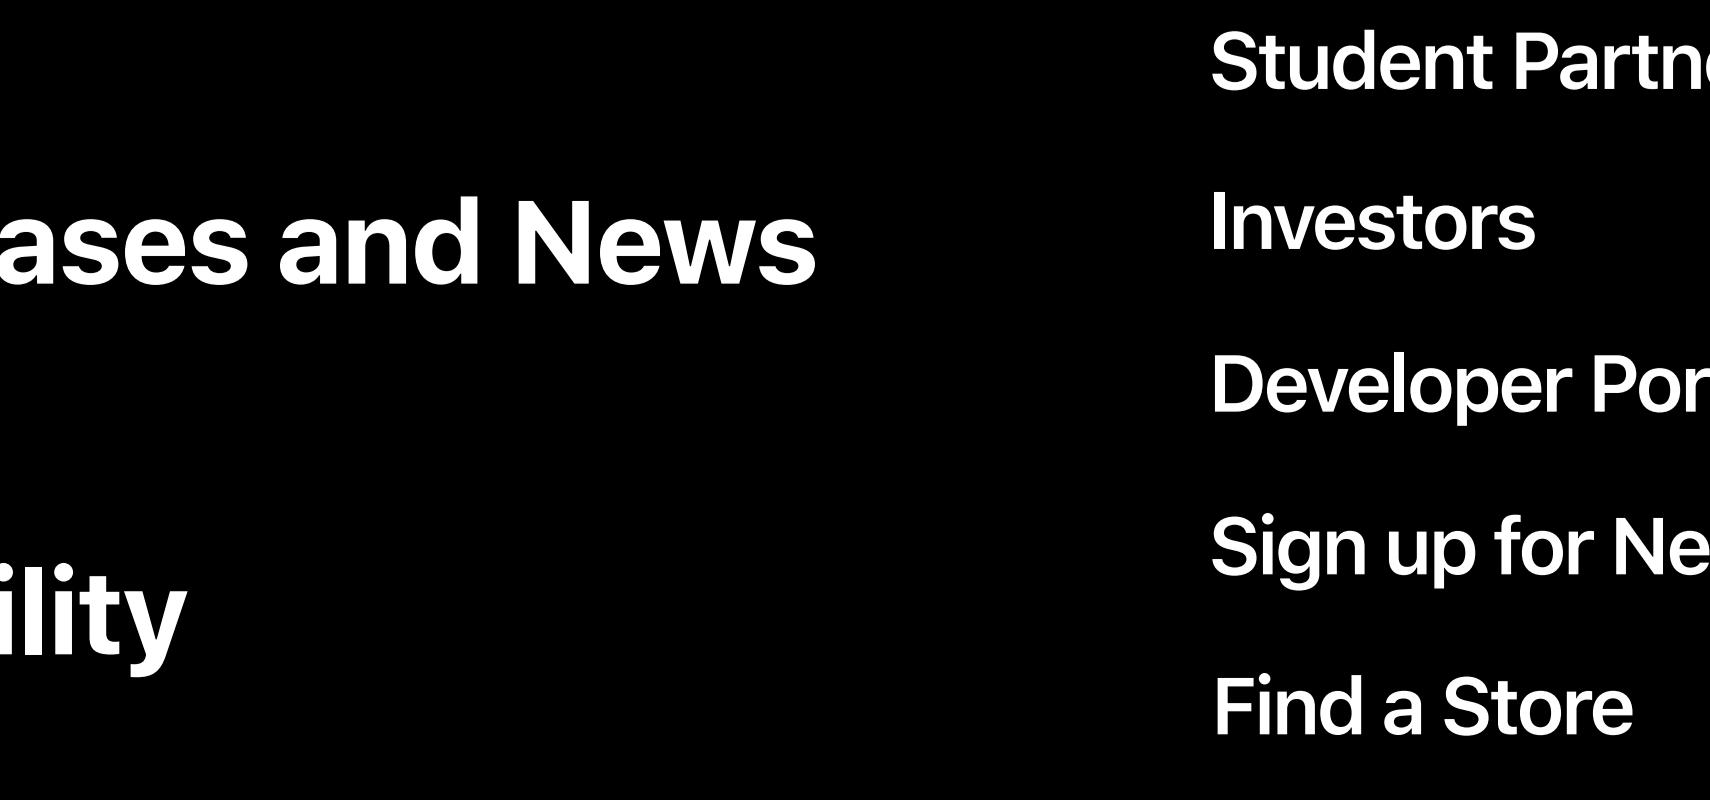

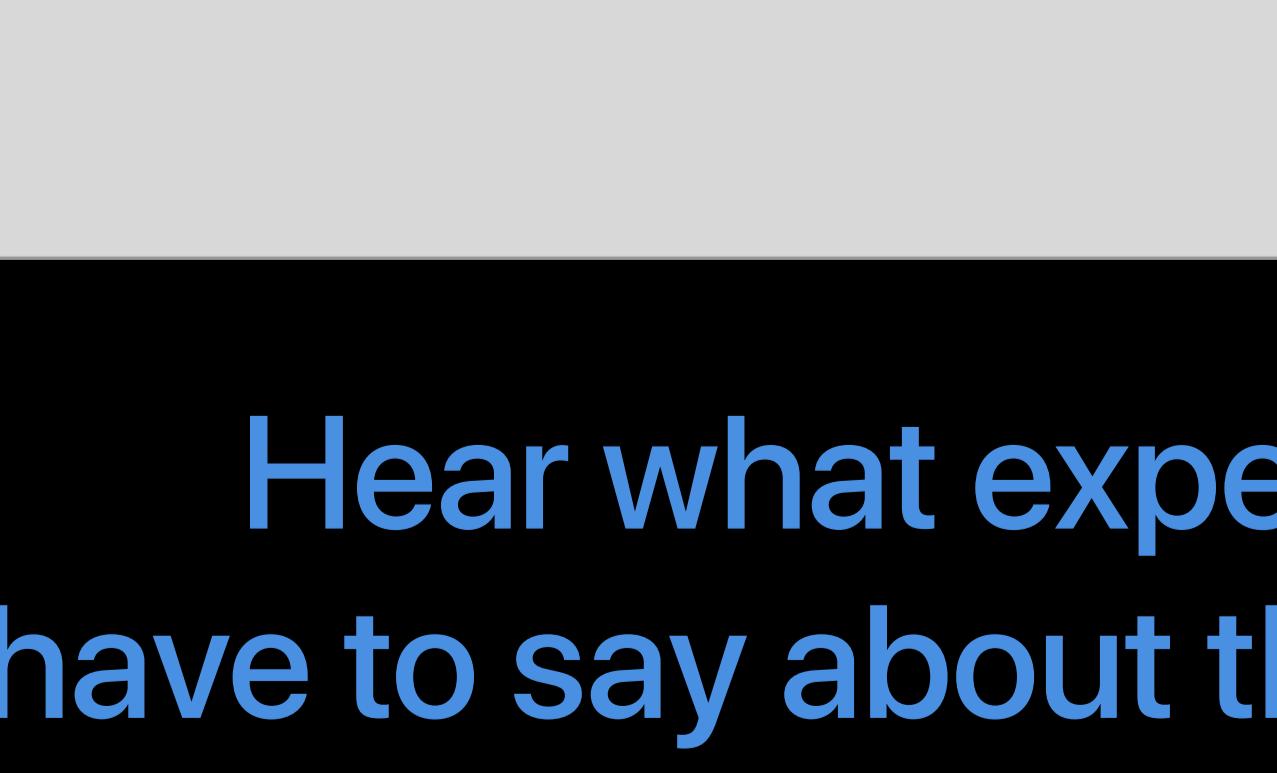

A six-microphone array, along with an internal bass-EQ microphone, analyzes and compensates for the effect of the room on the bass response, providing rich, consistent sound.

Beautiful. Inside Out.

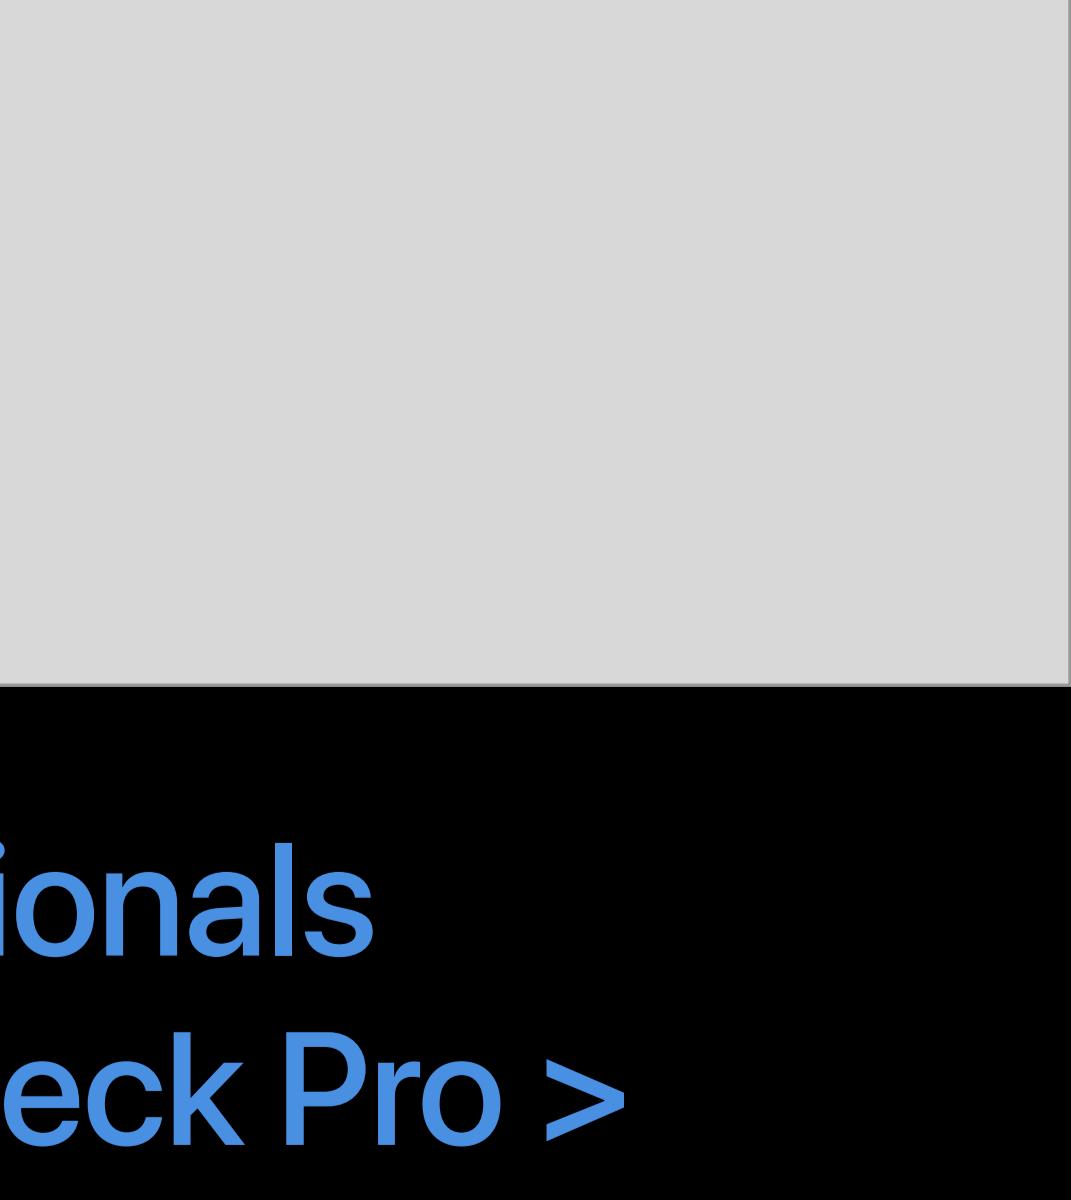

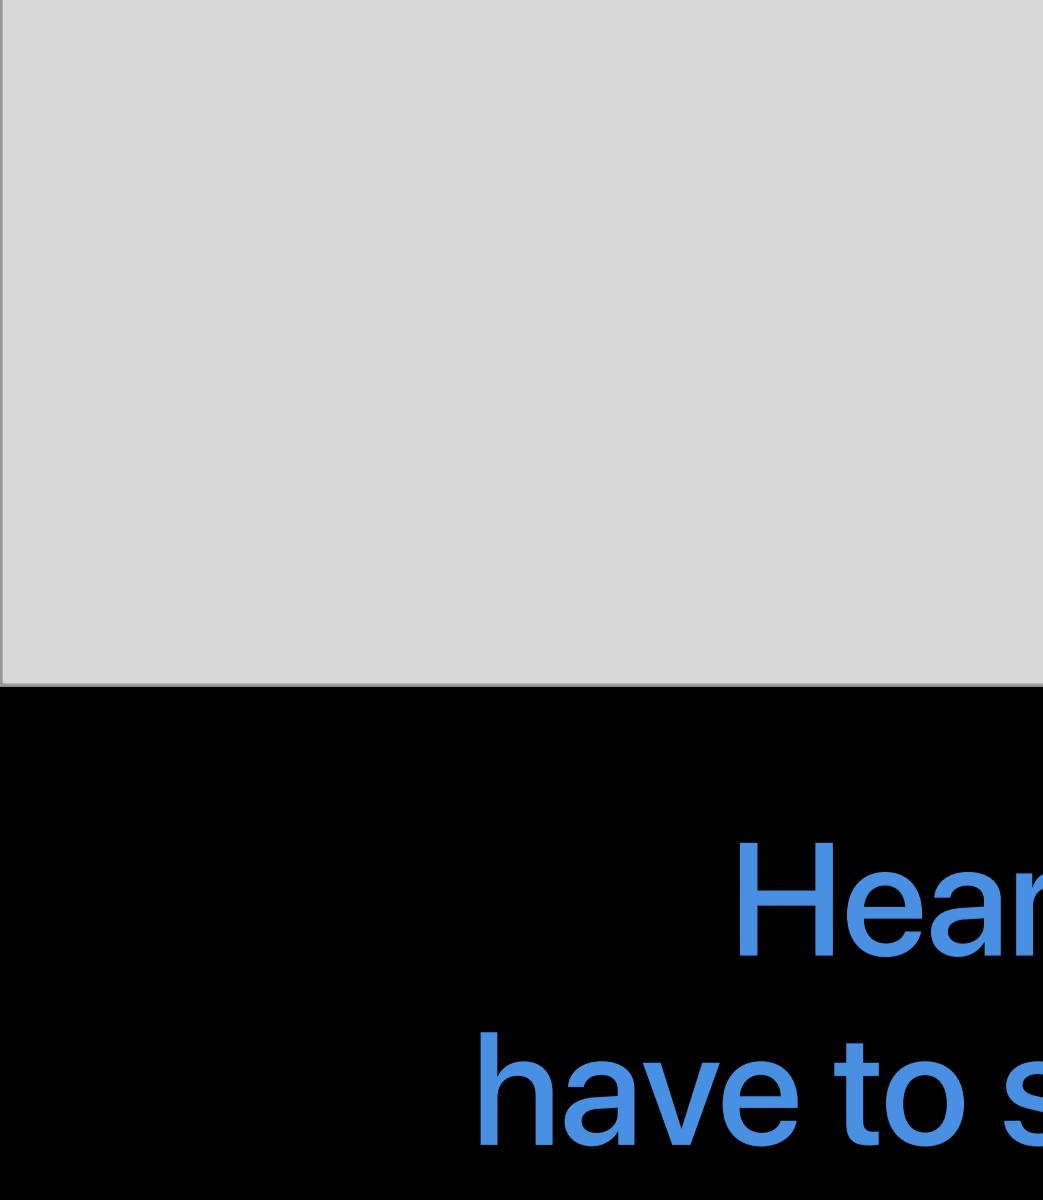

Wall-to-wall. Ceiling-to-floor.
Its room-filling sound.

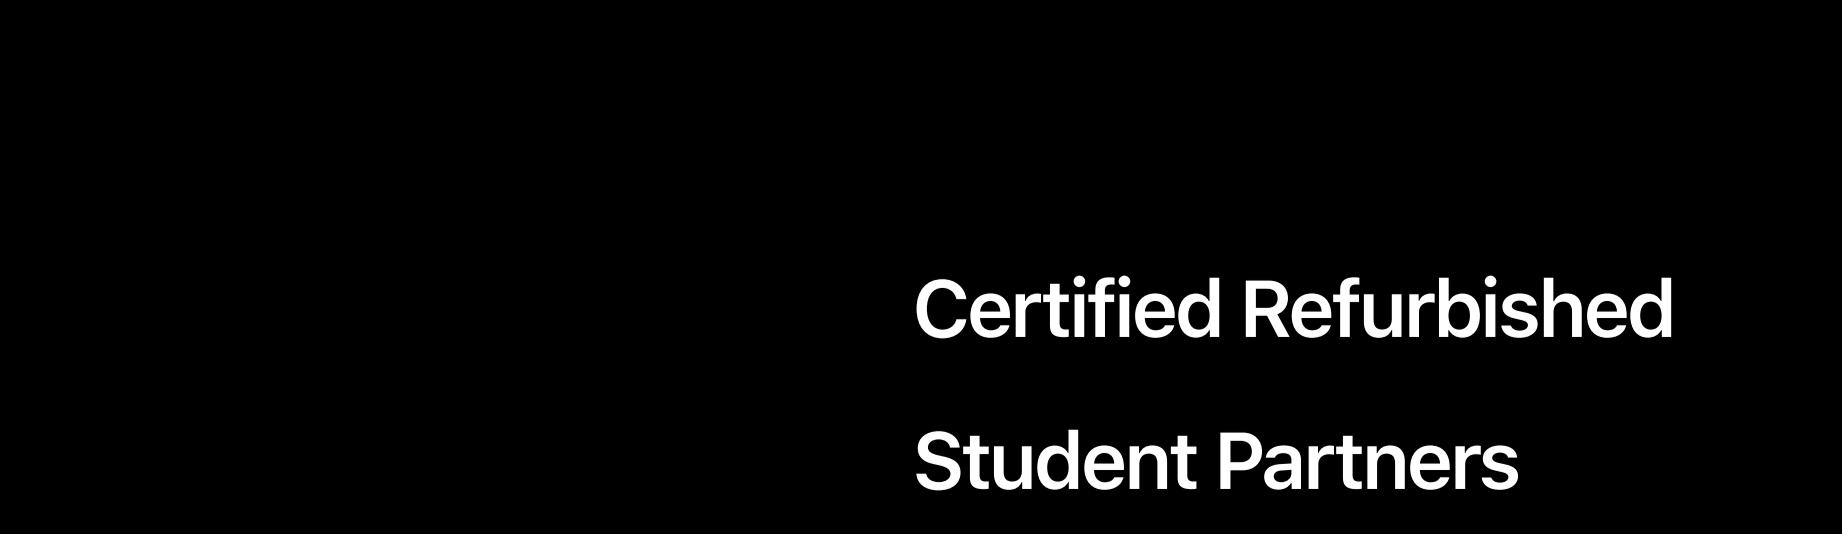

Place SoundDeck Pro anywhere in the room. With spatial awareness, it automatically analyzes the acoustics and adjusts the sound based on its location. Direct sound, including the main vocals and instruments, is beamed to the middle of the room, while ambient sound is diffused into left and right channels and bounced off the wall. So the entire space is filled with rich, well-defined tones.

For All Your Music.

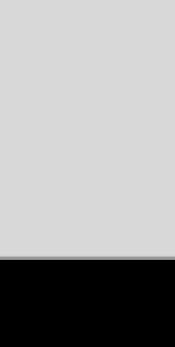

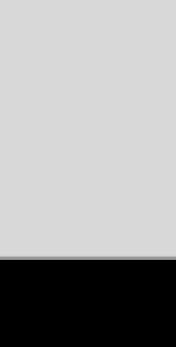

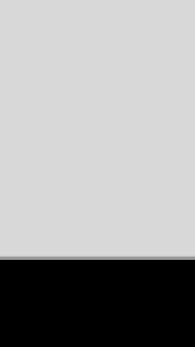

And even more.

Lashell&Noe

Redefining Sound. Since 2011

Our Founders

Jimmy Lashell
CEO & Founder

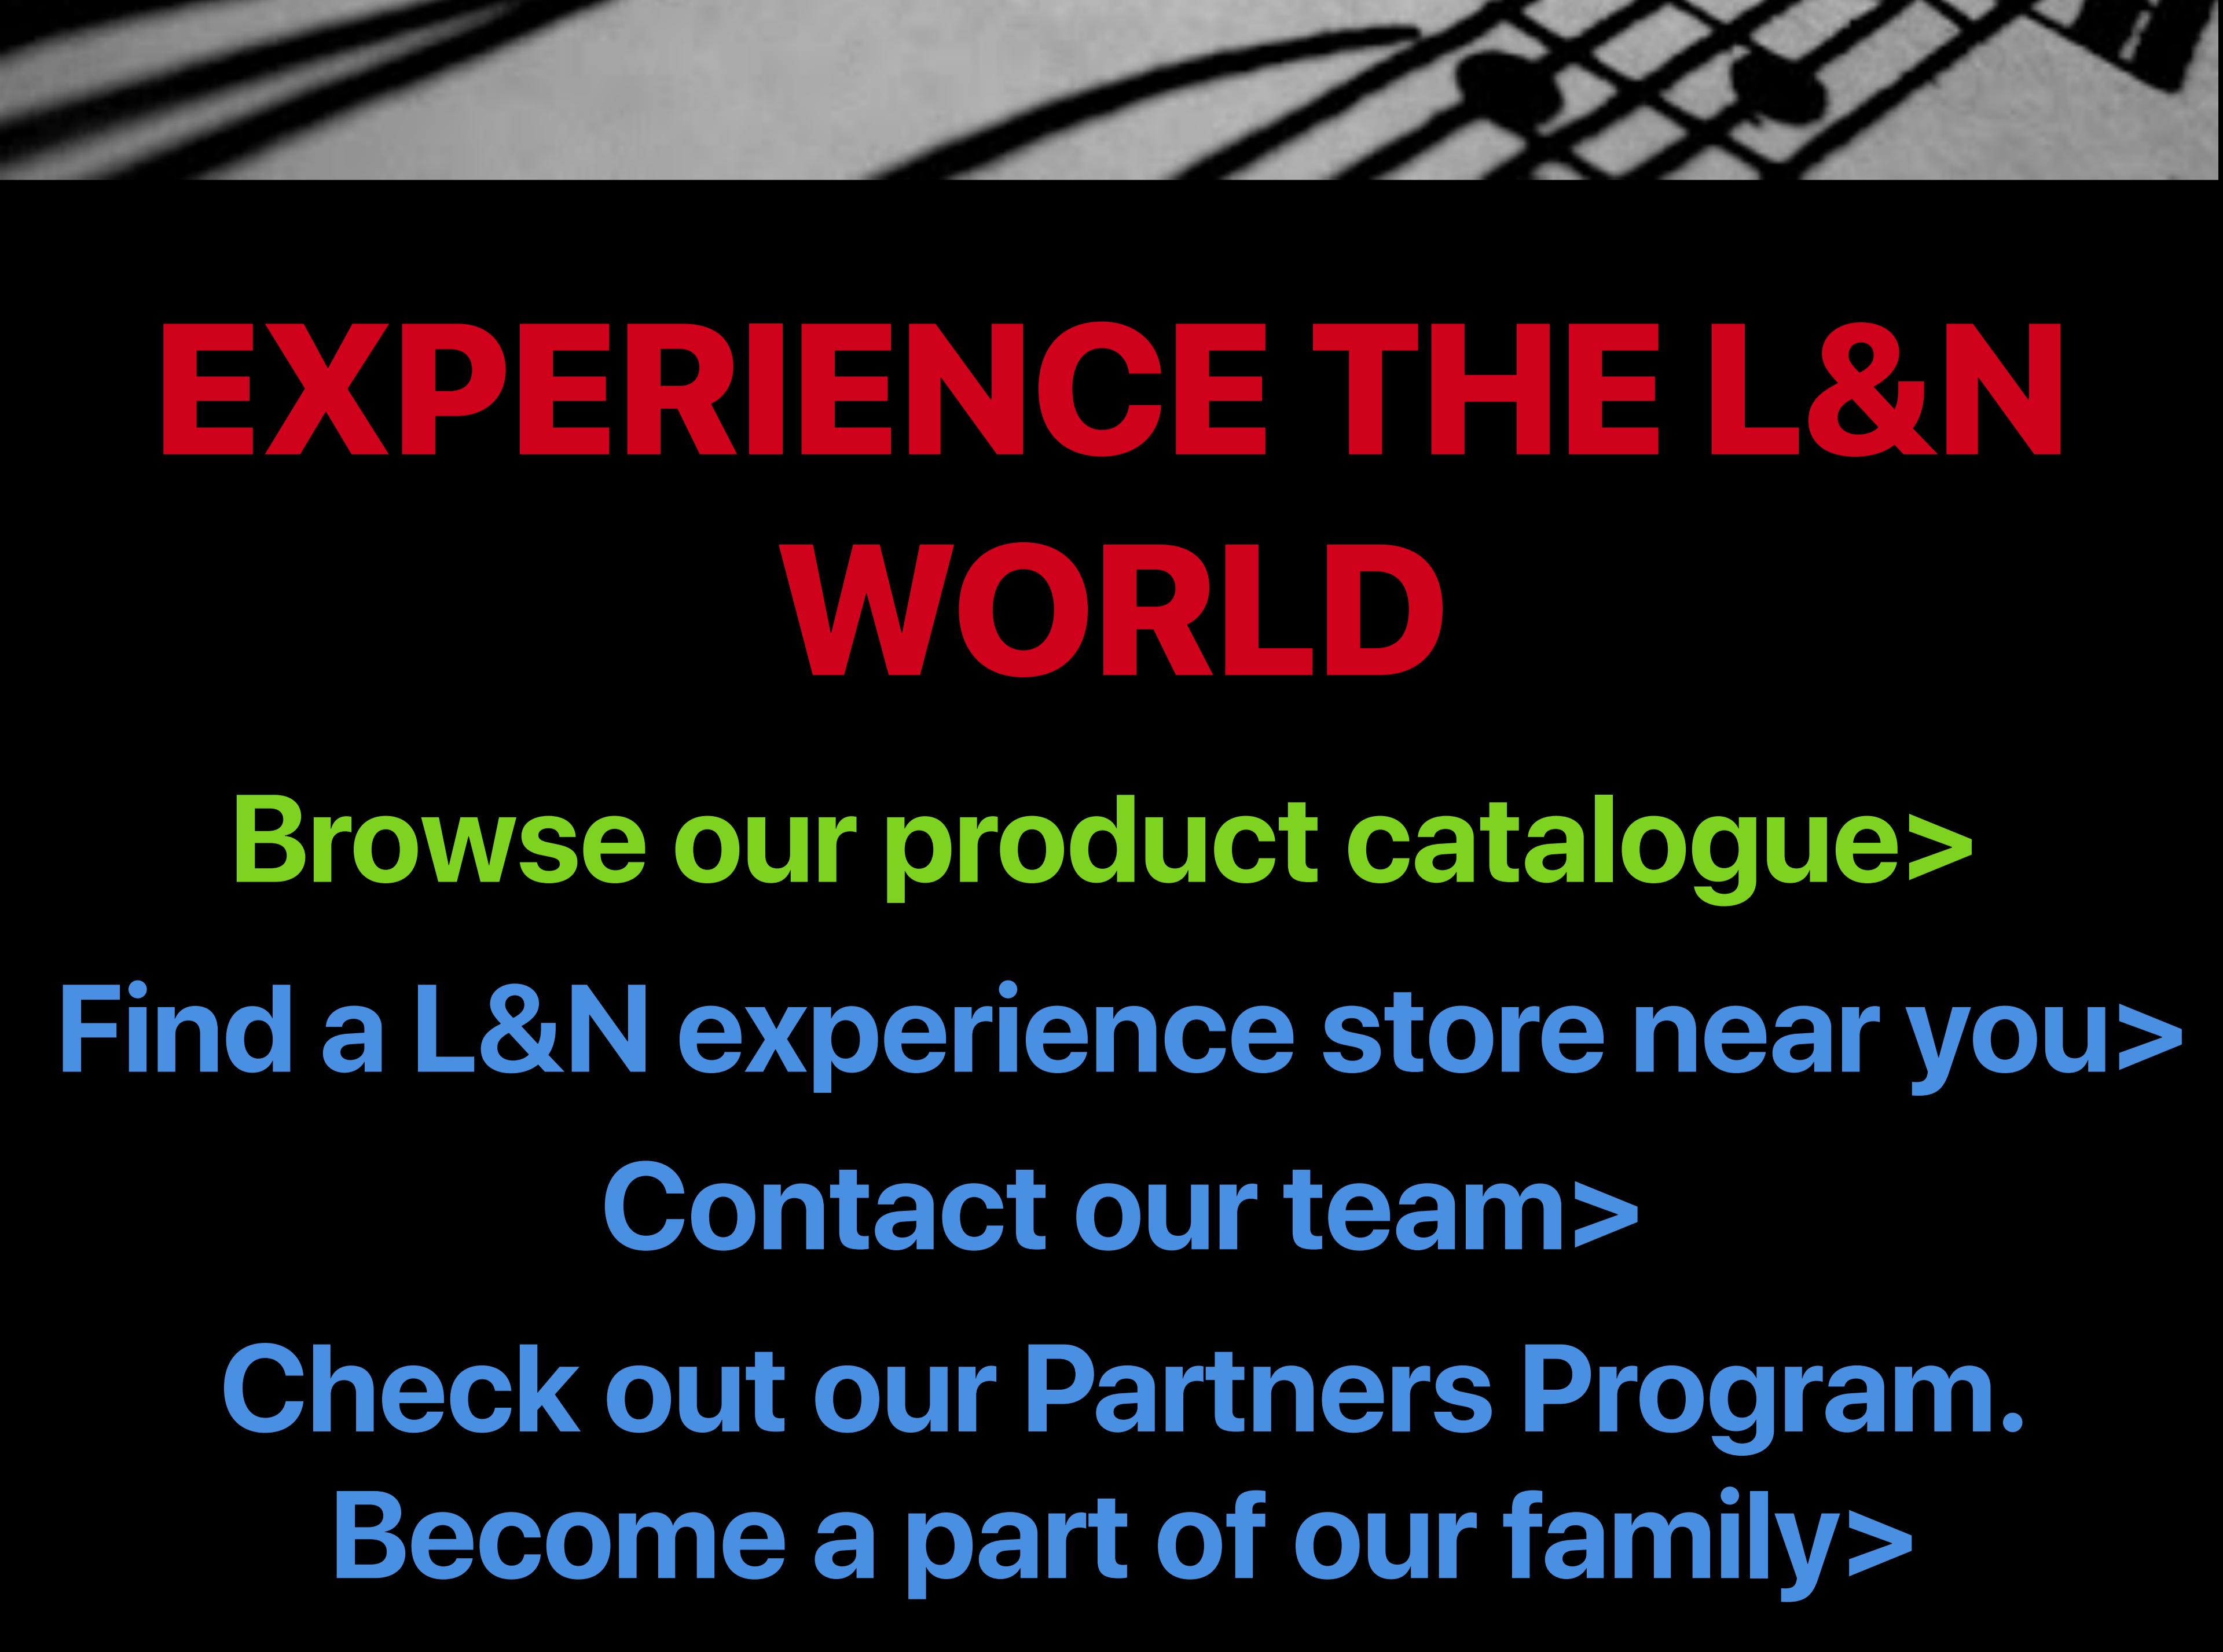

Timothy Noe
CTO & Founder

Our founders, Jimmy and Tim or Lashell&Noe as they are more commonly known as, always dreamt of creating great music in their childhood.

Both of them started out as indie artists and later formed the band Delta, breaking into the Top20 Young Musicians Of The World List in 1983.

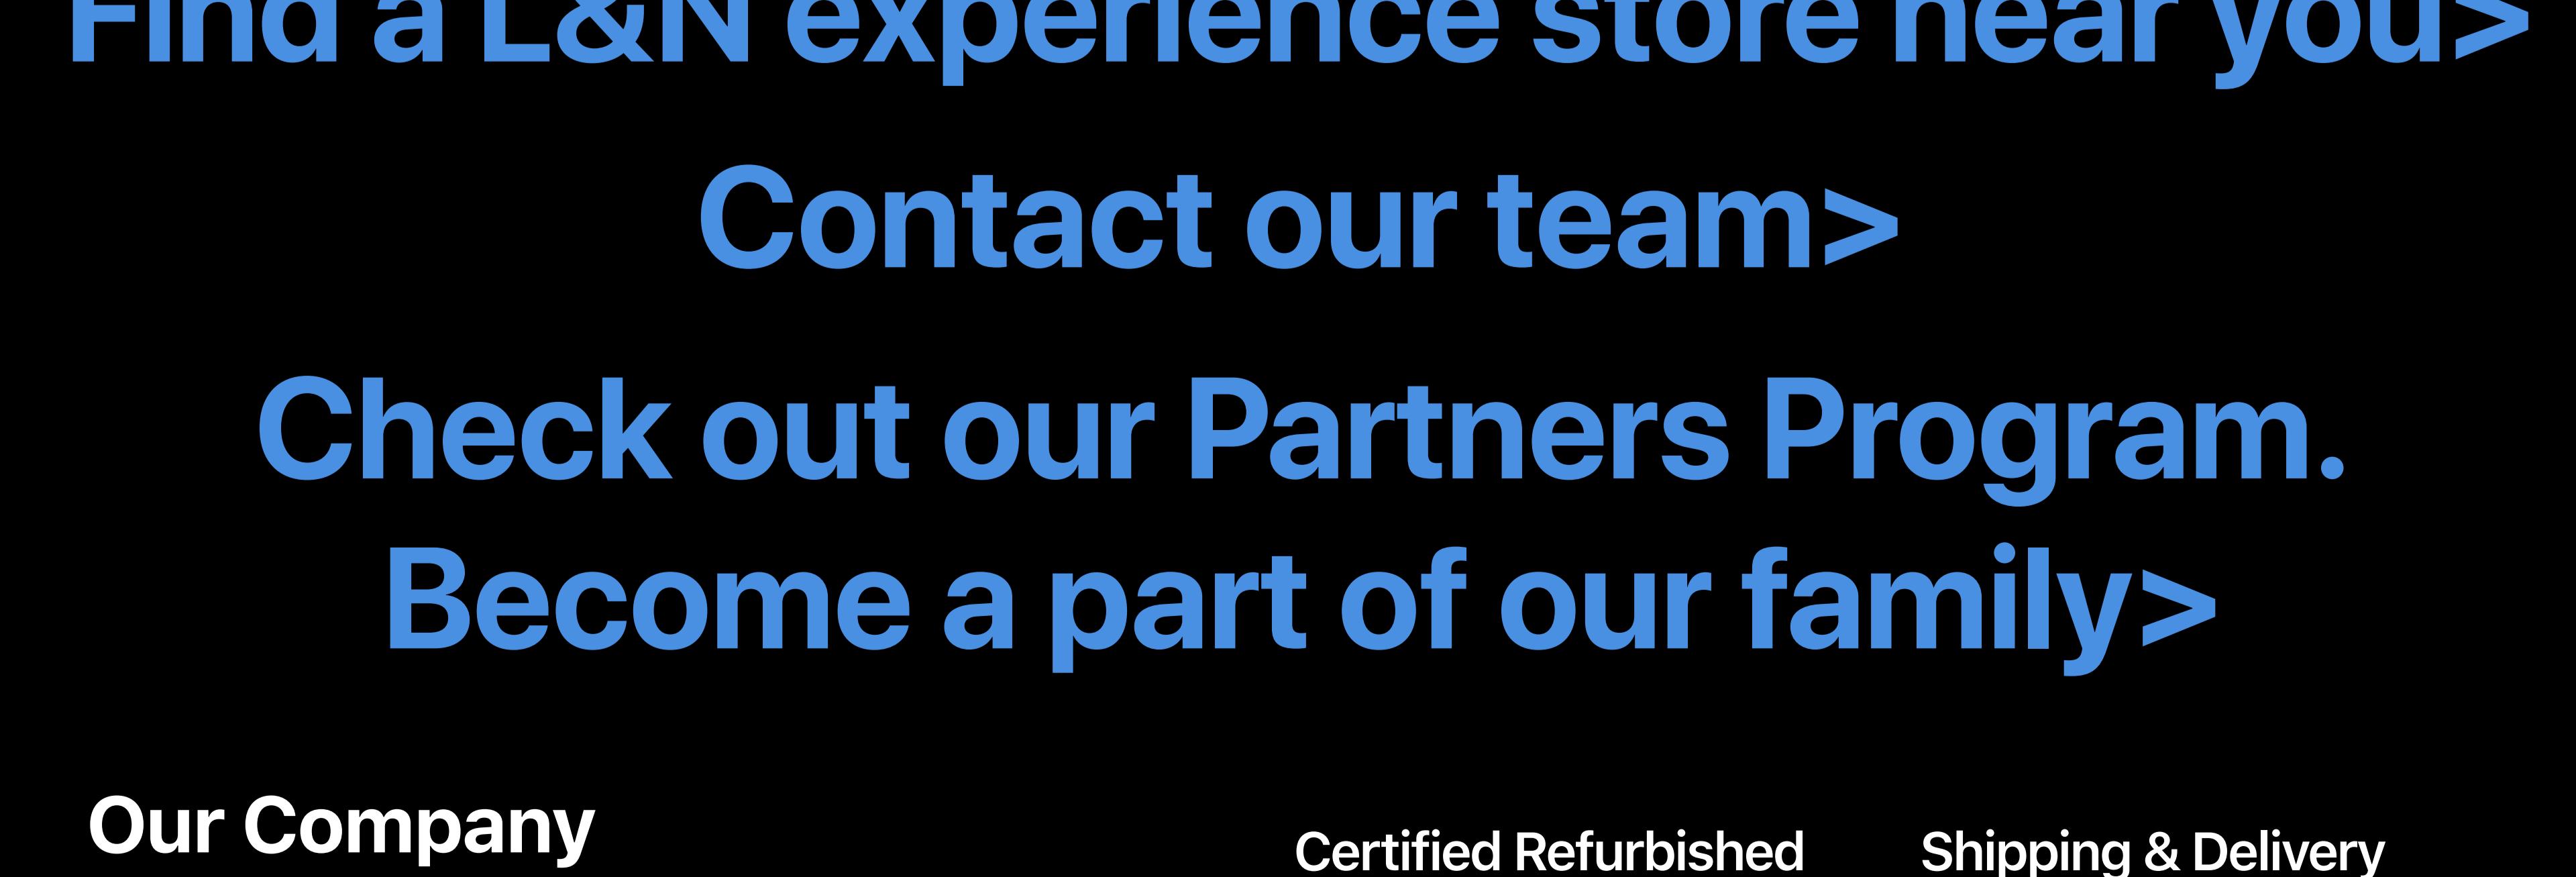

Lashell&Noe actively support athletes and indie artists and bands through various support and partner programs and outreaches.

MUSIC IS IN OUR DNA

Lashell&Noe creates world class Audio products.

Our philosophy is that Good Music eliminates geographical boundaries and unites the world.
